

WEB PRICES ARE AVAILABLE ONLY WHILE SUPPLIES LAST.

When ordering from this page you need to tell the Parts department that you are ordering from the F. L. Smithe web site or they will invoice you at the regular price.

Please remember to have your machine serial number when ordering as some items may be serial number specific.

CHAMPION MOW

MOW Special Order File – 164 – Wide Transfer Segments After Cut-off – This file provides better transfer of blanks between the MOW cut-off knife to the open end cutters. The original 7/8" (22 mm) wide segments and holders on the transfer shaft are replaced by four (4) 2 7/8" (73 mm) wide segments and holders. Also the bite end of the main segments has a reversible and replaceable tip for longer use. These segments were standard on MOW machines serial number 3964 and up.

Web price - \$2,615.00

MOW Special Order File – 216 – Dual motor Feedback Loss Protection – For dual-motor drive machines, this file performs the same function as a field loss protection circuit in a D.C. drive. It prevents drive instability in the event of a feedback loss from the drive motors.

This file is easy to install, involving a control box mounted on top of the main controller with wiring running to existing components in the controller.

Web price - \$619.00

THIS UNIT SHOULD BE INSTALLED ON ALL DUAL MOTOR DRIVE MACHINES.
