**When ordering from this page you need to tell the Parts department that you are ordering from the F. L. Smithe web site or they will invoice you at the regular price.**

**Please remember to have your machine serial number when ordering as some items may be serial number specific.**

## **CHAMPION RA MACHINE**

RA Special Order File – 135 – Standard Patcher – This is the complete standard patcher for the RA machine. If you have a machine with just the High Speed Patcher you need this file in order to do large windows or double windows. With the Standard Patcher you can do a wide variety of windows from multiple windows to large picture windows as shown below.

**Web price - \$32,500**

RA Special Order File – 144 – This file provides a linear adjustment to the panel cutter so that the panel cutter can be adjusted 3/8" to the operator's side or 3/8" to the drive side. It includes the Adjustment Knob Assembly for the operator's side and the Roller Guide Assembly for the drive side of the machine.

**Web price - \$2,317.00**

RA Special Order File – 176 – This file adds two outside printers to the RA combination #1 machine giving the machine the capability of printing four colors on the outside of the envelope.

**Web price - \$65,000.00**

RA Special Order File – 18 – This file is the Double Outside Side Seam attachment for the RA machine. It allows the manufacturer to produce booklet style envelopes with the side seams folded on the outside of the envelope. The DOSS unit is very effective for producing airline ticket envelopes, file folders and many other specialty envelopes.

**Web price - \$25,184.00**

RA Special Order File – 196 – This is the field Loss Protection kit for all early DC drive machines. This file covers the following machine types and serial numbers: RA machines serial number 3265, 3336, 3338, and 3344, also RA numbers 3438 thru 3532 excluding RA 3522. Also for MOH machines serial numbers 3559 thru 3570.

**Web price - \$405.00**

RA Special Order File – 227 – Standard Patcher Gummer Shaft Adjustments. This file enables the adjuster to make fine adjustments both laterally and circumferentially while the machine is running. This greatly improves the change time in this area of the machine and also requires less maintenance than the standard system.

**Web price - \$8,544.00**

RA Special Order File – 65 – High Speed Patcher for the RA combination #1 machine. Allows the RA to run at full speed while applying a patch. Also used for double window envelopes saving time and film. Machines must have the 10" uncant cylinder to add the HSP.

**Web price - \$31,269.00**

RA Special Order File – 71 – This kit is the 10" uncant cylinder which is needed to add the High Speed Patcher.

**Web price - \$10,314.00**

RA Special Order File – 83 – This file gives the RA the capability to fold double coupon or bangtail envelopes. See newsletter volume 3 number 8 for more information.

**Web price - \$1,719.00**

SARA-2003 – Lower Paper Guide for the 2<sup>nd</sup> Impression Cylinder

**Web price - \$236.00**

SARA-2018 – Complete Upper Outside Printer (#2 printer)

**Web price - \$13,029.00**

SARA-2019 – Complete Lower Outside Printer (#3 printer)

**Web price - \$13,029.00**
